## The Raven

A Game of Thrones party game

By Bruno Faidutti

For 2 to 7 players

5 to 52 minutes.

Set-up :

- Shuffle the cards and deal 8 cards, face down, to each player.

Draft :

- Each player looks at his cards, selects one to keep and puts it face down in front of him, then passes the seven remaining cards to the player on his left. Then each player selects one more card from the seven he received and passes the six remaining ones to the player on his left, and so on. When a player receives two cards, he selects one and discards. Each player ends with 7 cards.

Gameplay :

- All players together start looking at an episode of the Game of Thrones. When a player sees on the screen an item or situation described on one of his cards, or hears a sentence or formula written on one of his cards, he states it and discards the card. In case of doubt, the other players vote to decide if the play is valid.
- First player to discard his last card wins.
- If the episode ends before any player has played his last cards, the player(s) with the fewest cards in hand wins.

Gates close	Hangover	Storm	Bow
